The Gathering of Resophonic Pickers is an annual event that brings together some of the world's finest resonator guitarists. The event features workshops, concerts, and a jam session, and it's a great opportunity to learn about and experience the unique sound of the resonator guitar.

Resonator guitars are a type of guitar that uses a metal cone to amplify the sound. This gives the guitar a distinctive, ringing sound that is perfect for blues, bluegrass, and country music. Resonator guitars were first developed in the early 1900s, and they quickly became popular with musicians of all genres.

The Gathering of Resophonic Pickers was founded in 2003 by a group of resonator guitar enthusiasts. The event is held each year in a different location, and it has featured performances by some of the biggest names in resonator guitar, including Bob Brozman, Mike Auldridge, and Cindy Cashdollar.

The 2023 Gathering of Resophonic Pickers will be held in Nashville, Tennessee, from October 13-15. The event will feature workshops on resonator guitar playing and maintenance, as well as concerts by some of the world's top resonator guitarists.
